

Integrated Cloud Based Retail Scale System

Trade-certified. *Cloud-connected.* Built for retail.

 **Scale MK3**

Gap
SOLUTIONS

Allow Scale to become an **integral part** of your business.

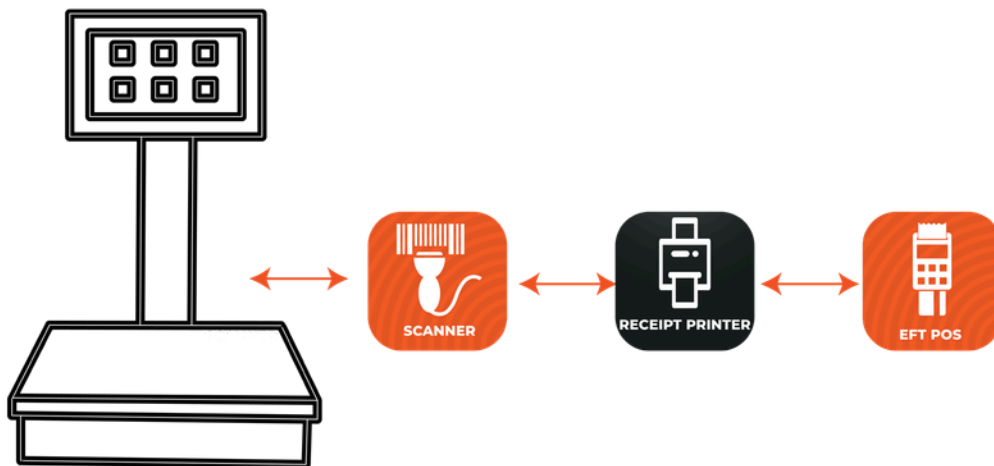

Ezi Scale is a trade approved completely customisable, flexible solution configured to meet your business requirements.

Whether you are running a seafood store or a butchery, single or multi store our solution can be configured to meet your requirements.

Adaptability and integration go hand in hand with your Ezi Scale allowing you to integrate with our renowned EM Cloud™ and EM Pos™ integrated retail management software.

Your Ezi Scale can operate as a stand-alone machine or networked with other Ezi Scales for seamless interaction.

Users can also connect numerous Ezi Scales to a shared labeling machine or receipt printer with central cash drawers, depending on your setup and how you envision using your Ezi Scales.

We are constantly adding new features and improving your Ezi Scale user interface.

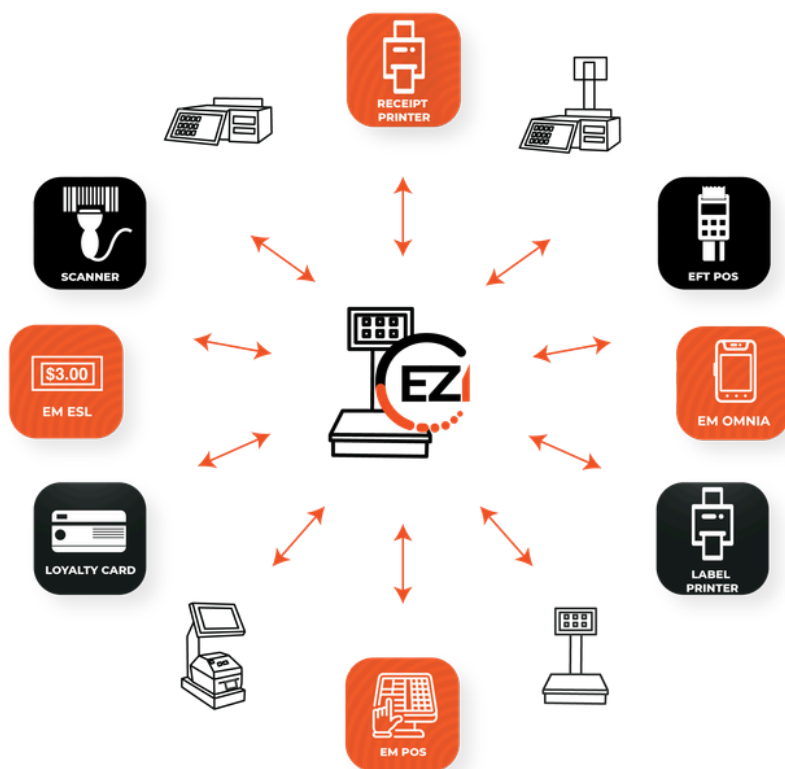

Your Ezi Scale receives updates via the cloud, so feature and functionality updates are automatically pushed out once we've developed and tested them. This keeps your Ezi Scale relevant and compliant with regulatory requirements.

Integrated EFT-POS saves time at checkout, cash up and helps prevent missed keyed sales.

Adding a barcode scanner to your Ezi Scale setup is simple. Our powerful 2D scanners are perfect for all your scanning needs. You can scan barcodes from mobile displays, loyalty card vouchers, and product barcodes, as well as promotional codes and QR Codes.

Easily update price and products on your specialised deli electronic display labels through your Ezi Scale utilising our EM Omnia PDE.

Ezi Scale Features and Hardware Integration Solution

Ezi Ticket

Add Ezi Ticket seamlessly to your Ezi Scale setup for organised customer queueing and order-taking, with advertising printed on your tickets, plus an optional “now serving” voice announcement.

EM ESL

Effortlessly update and adjust prices on your electronic shelf labels (EM ESL) using the Ezi Scale and EM Omnia PDE. This seamless integration empowers you to implement rapid price changes that align perfectly with your dynamic pricing strategy.

Ezi Rewards

Integrate your Ezi Scale with our Ezi Rewards. Your own customer loyalty program for rewarding your customers, encouraging repeat purchase and tracking customer spending.

EFTPOS

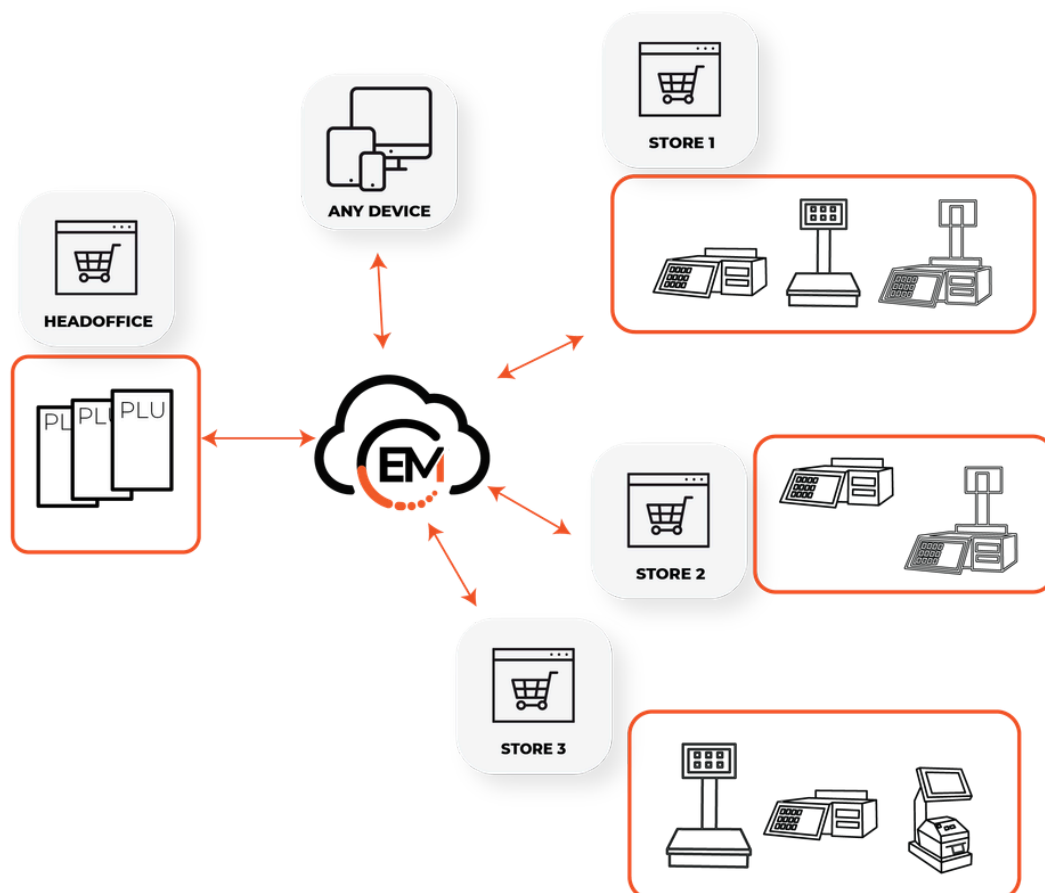

Your Ezi Scale can be integrated with multiple EFTPOS providers, allowing for accurate and quick transactions.

EM Cloud™ and Ezi Scale Integration for Single and Multi - Store Solution

EM Cloud™ is a cloud-based central retail management system for single or multi-store operations, replacing the traditional back-office price management and reporting system.

It is a purpose-built solution offering up-to-the-minute data filtering and reporting, and enabling integration with the EM Pos™ system, Ezi scales, label printers, receipt printers, and payment devices.

Ezi Scale is designed to run between EM Cloud™ and the scale communication tool. It can translate supported scale output files into common output files and send all of your price lookup (PLU) data to your Ezi Scale machine from EM Cloud™.

Ezi Scale Label Solutions

Our comprehensive label selection options will allow you the maximum print area for possible markdown labels, receipt labels and more. Label layouts can be on pre-printed labels that incorporate your own logos and fonts, or on a continuous label option where branding is printed on the label.

Our user-friendly label design tool allows you to custom-design your label layout as required for various product categories. Mandatory Country of Origin label printing will ensure your packaging stays compliant with legislation.

The Future of Sustainable Labeling

The eco-friendly, versatile, and cost-effective labeling solution for your business

Enhance your business's productivity and sustainability with Ezi Linerless Labels! These innovative, eco-friendly labels are specifically designed for retailers and food packaging, providing the perfect balance between practicality and environmental responsibility.

Discover the efficiency of linerless material. Unlike traditional labels, this material can be printed with a variable length, saving you time and resources on labelling. Designed for thermal direct printing, this linerless material is perfectly suited to your needs, making it a cost-effective alternative to options with backing. Plus, enjoy the flexibility to use it in various applications.

Discover the **Linerless Labels** advantage

Tailored to your needs

We understand that every business is different, and so our team is dedicated to providing you with customised labeling solutions

Easy-to-use

Ezi Linerless Labels are designed for a seamless and straightforward labeling experience that saves you time and effort.

Premium customer support

Our team is always here to assist you in answering questions and resolving issues, ensuring smooth operations

Key Features

Sustainability

Our Ezi Linerless Labels eliminate the need for backing material, resulting in less waste and reduced impact.

Variable Length Printing

Our linerless material can be printed at variable lengths, allowing you to save time, money, and material during your labelling process.

Thermal Direct Printing

Ezi Linerless Labels are designed to work seamlessly with thermal direct-printing systems, ensuring crisp, clear results for every label printed.

Economical Savings

Ezi Linerless Labels provide significant cost savings compared to alternative labelling solutions by eliminating the backing material traditionally found in label rolls.

No Limits On Ingredient Labeling

Our linerless labels can be printed at any length, ensuring you can include all important information and ingredient lists without compromising layout or font size.

Fewer Roll Changes

With Ezi Linerless Labels, you'll experience fewer roll changes due to their compact design and extended roll length.

Easy Lift And Reapply

Mistakes happen; labels can easily be lifted and reapplied if incorrectly applied. This helps reduce waste and maintain a professional, consistent appearance across all your products.

Waste Reduction

Use of sustainable raw materials

- Labels from renewable sources.
- FSC certified labels.
- Labels made of recycled papers and plastics.

Use of recyclable materials

- Biodegradable labels.
- Removable and wash off labels.
- Labels which increase the recyclable of the overall packaging.

Less material needed

- Linerless labels - no liner.
- Thinner material thickness.

Ezi Scale Customer Display

The customer-facing display allows for effective in-store advertising to help promote special offers, season greetings and special announcements.

Customers will be able to view transaction information, weight and pricing while operator are busy processing requests.

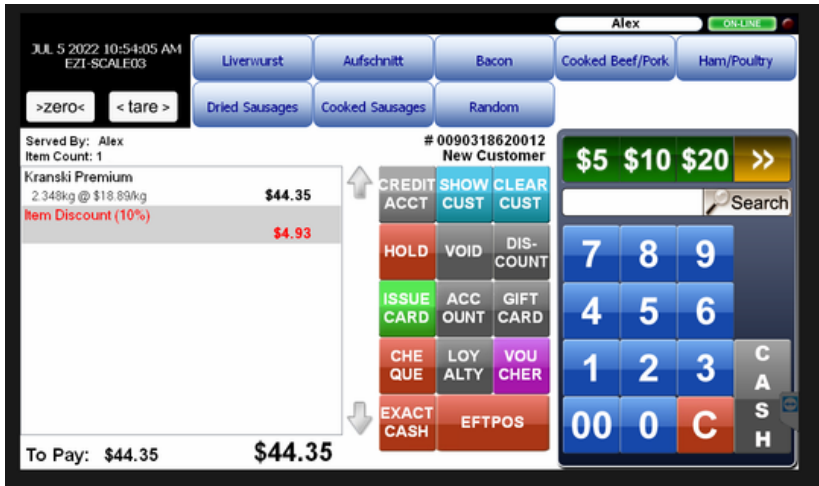

Ezi Scale Floating Operator

Your Ezi Scale can operate as a stand-alone machine or networked with other units for seamless cross-functionality such as Floating Operator and Scale Zones memory features that makes all your Ezi Scales work in unity.

Our floating operators features means an order currently in progress moves from scale to scale with the operator automatically.

Ezi Scale Operator View

The large 10.1" touch screen display makes the interface is easy to use and make for quick, fast, operations.

The full colour operator touch screen is one of the most commented features with in the Ezi Scale range.

Ezi Scale Quick Keys

Over 400 configurable 'quick keys' allows you to create shortcuts to your most used products. The on board processor will ensure optimum performance and perfect graphics with minimal power consumption.

Ezi Scale Markdown View

With the markdown feature, your Ezi Scale MK3 makes price markdown effortless, seamlessly driven by EM Cloud™ software. One touch on the intuitive touchscreen pulls live product data, recalculates the markdown, and instantly prints a fresh, GS1-compliant label with updated price, barcode, and expiry: no back-office terminals, just faster stock rotation and reduced waste straight from the scale.

Ezi Scale Dump Stock View

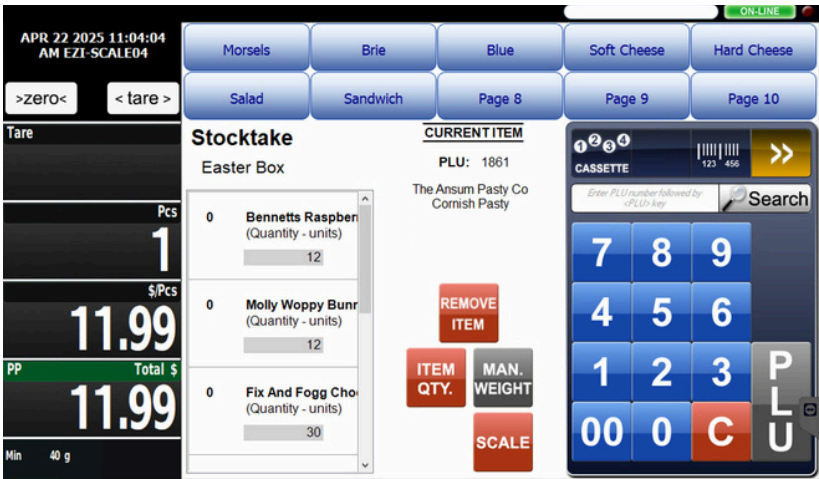

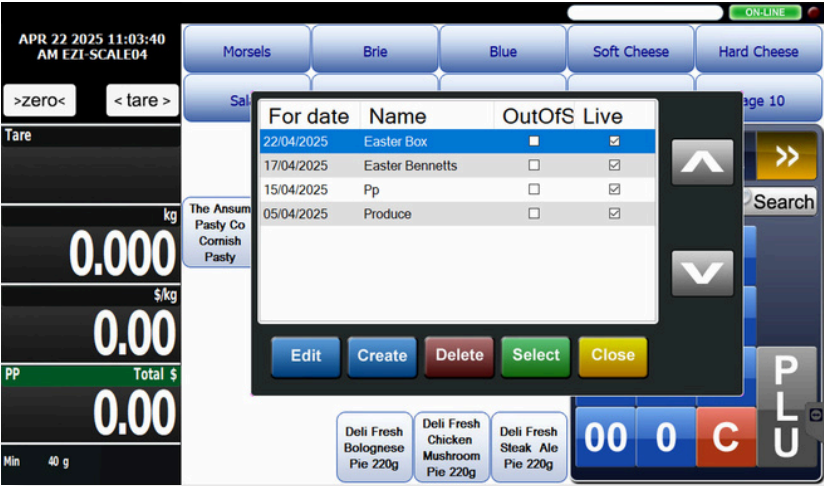

Your Ezi Scale MK3 makes expiration management into a one-touch task. In Dumpstock mode, staff weigh and select the expired or damaged product, tap the appropriate reason code, and record the discard by weight or item.

Every action syncs instantly to EM Cloud™, delivering precise, auditable waste reports without leaving the counter.

Ezi Scale Stocktake View

The Ezi Scale MK3 makes inventory counts as quick as a weigh-in. Switch to Stock Take mode, scan or select each SKU, and record quantities by weight or individual units in seconds. Every adjustment syncs instantly with EM Cloud™.

Allow **Ezi Scale** to become an **integral part** of your business

Features

Clean

- Quick and easy cleaning of the scale.
- Surface - problem free removal of stray labels.
- Load plate - optimum ease of handling.
- Displays - frameless for maximum cleaning efficiency.

Load

- 3-in-1 all-purpose printer: ticket, labels and linerless labels.
- Enables paper rolls to be changed in a matter of seconds.
- Printing of label layouts on pre-printed linerless paper.
- Paper width up to 80 mm, roll length up to 80 m, print speed up to 100 mm/s.

Level

- Accurate weighing results even when the scale is not levelled, no loss of revenue.
- High-end PC-based scale with outstanding Intel® Dual Core Processor for optimum performance and perfect graphics with minimum power consumption.
- Tilt compensation for uneven surface.

Resistance

- IP65 water resistant.
- Dirt resistant.
- Food grade stainless steel means meat, seafood & poultry stains and scraps are easily wiped clean.

Screens

- Full 'markdown' & 'dump stock' facility.
- Full colour 10.1" operator screen.
- Comprehensive Pre-Pack mode.
- User configurable PLU pages.
- Quick product select screens.

Separate Printer

- Use of configurable label cassette allows combination of different label stock & styles.
- Separate printer allows for quick & easy change of labels. (pre-pack, markdown, pizza & more)

Pre-Pack Mode

- Comprehensive pre-pack mode with preset tares for weighted items.
- Logo & stylised fonts can be printed on the labels.
- Variable formats for labels, high-speed printing.

GaP Solutions truly understand what retailers need. Their technical support and customer service are unmatched, and provide services that enable retailers like me focus on running our businesses most efficiently.

- Krish Brahmbhatt, Owner, Local Grocer
Melba & Partner, Supa Express Florey

We've been working with GaP Solutions for over ten years, and we couldn't be happier to be working with a like-minded South Australian Company. We have a complex business offering, so we are very happy to have found a partner that creates a product to suit our company and provides support both over the phone and in store.

- Dermott Taylor, Chief Financial Officer at
Charlesworth Nuts

Romeo's has successfully rolled out Ezi Scales across all departments. The transition was smooth, and the team is very satisfied with both the service and ongoing support provided by GaP Solutions. We're confident we made the right choice.

- Joseph Romeo, Romeo's Co-Owner

The Labeller is a powerful, sleek, savvy printer suitable for all retailers

The dependable performance and advanced features of the printer – along with fast print speeds, network manageability and easy load designs – enable the user to improve operational efficiencies, boost profitability and reduce downtime.

Ezi Ticket

Intelligent queuing and enhanced user experience.

Ezi Ticket is a smart, user friendly integrated queuing ticket dispenser unit designed for the specific needs of deli services within the retail environment. The units are unique as it can operate in stand alone format or integrate with all scales and point of sale units behind the counters, allowing staff more features to manage queuing customers.

d 230mm
w 185 mm
h 440 mm

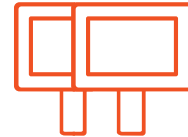

Features

Our Ezi Ticket can integrate with all Ezi Scales within the store.

Enabled to print stylised fonts and logos.

Dual screen configurations are available for stand alone use.

Audio module functionality is available to announce the 'now serving number'.

When integrated with Ezi Scale, a single-screen gives your staff unrivaled queue management features.

The 'Now serving number' can be displayed on the Ezi Ticket Machine and the Ezi Scale customer display screen, informing customers of their position within the queue.

Ezi Ticket allows stores to configure an advertising message of choice that can be printed on the deli ticket issued to customers.
